Profile

History

Sondesign was established by Stewart Sonderman in the beginning of 2002 as an independent design consultancy providing services for corporations, institutions of higher learning, municipalities, entertainment facilities, government agencies and manufacturing.

Stewart's broad experience in the design field includes projects ranging from traveling exhibitry to comprehensive signage systems for high end retail and residential resorts. The underlying connection between every project is a solid concept and process.

Services

The scope of our projects range from identity, wayfinding, graphic and industrial design programs to interior, environmental and exhibit design, for museums, parks, zoos, universities and industry.

The company prides itself in the development of turn-key solutions for clients assuring the most seamless consistent product. This process includes project management, concept generation, fabrication detailing, 3-d and physical modeling, material sourcing, image allocation, graphic design, pre-press, and on depending on client needs.

Clients

Sondesign has gained recognition by servicing such clients as SB Architects, Coleman Partners Architects, Second Story Interactive, Oregon Museum of Science and Industry, Silbraid, Precious Imports, Trailhead, J.Barringer Inc., Home Grown Audio, WOW Exhibits, and the Oregon Zoo Foundation.

Affiliations

SEGD - Society for Environmental Graphic Design
IDSA - Industrial Designers Society of America
AZA - American Zoo and Aquarium Association
